Career Opportunities

TEST ENGINEER

Location: Hyderabad, India

Amphora Software Pvt. Ltd. is the premier software solution provider for energy trading, logistics and risk management in the global crude oil, refined products and energy derivatives marketplace. Our team includes some of the most experienced software designers, developers and business analysts in the commodities industry today. Since our inception, our main goal has been to provide the trading community with the most robust, user-friendly, enterprise-wide software package available. We continue to launch new products that address customers' needs and adjust to dynamic market demands.

Duties and Role:
- Around 4-6 years of hands on experience in software engineering/software test engineering. \
- Detailed hands on expertise in developing test automation suites using tools like Selenium, Cucumber, SoapUI, etc. spanning API testing, web UI testing, thick client testing, integration and component testing.
- Deep knowledge and a practitioner in Test Driven Development and Behavior Driven Development techniques and tools.
- Must be a strong team player and should be able to work with different locations in Asia, Europe and America.
- Knowledge in application architectures, application, infrastructure (Linux, Windows) and database deployments (MS SQL, Oracle, My SQL) is required to understand and appreciate the complexities of systems.
- Experience in working in agile delivery model and knowledge in Agile methodologies
- Should be a self-starter and a leader which is essential in driving the creation of a test tooling and automation.

Experience:
3 to 8 years of experience

Qualifications:
- Must have a relevant degree or equivalent relevant work experience. Higher relevant education preferred.
- Strong problem solving & troubleshooting skills
- Motivated, energetic team player willing to take initiative and learn new concepts.

Benefits:
We value our employees' time and efforts. Our commitment to your success is enhanced by our competitive salary, depending on experience, and an extensive benefits package including paid time off, medical and future career growth opportunities. Plus, we work to maintain the best possible environment for our employees, where people can learn and grow with the company. We strive to provide a collaborative, creative environment where each person feels encouraged to contribute to our processes, decisions, planning and culture.
